

REFRESH • ONE ROOM • EXISTING LAYOUT RETAINED

A warmer, calmer living room

A simple visual refresh focused on wall colour, flooring and one coordinating finish - without redesigning the room.

ROOM REFRESH IN THIS EXAMPLE

The existing layout, fireplace, television, sofa and main furniture stay in place. The refresh is limited to a warmer floor, a soft sage feature wall and simple coordinating finishes.

£29 Room Refresh • one room • one direction • one visual

YOUR ROOM

Start with what is already there

CUSTOMER BRIEF

Make the room feel warmer and more contemporary without changing the layout or replacing the main furniture.

KEEP IN PLACE

Fireplace • TV • sofa • coffee table • room layout

This is exactly the kind of project Room Refresh is intended for: surface and finish changes rather than a redesign.

YOUR REFRESHED LOOK

Warm oak + soft sage

Project2Reality visual concept ? illustrative

FLOORING	Warm oak-effect herringbone	Adds warmth and a stronger visual finish while leaving the room layout untouched.
WALLS	Soft sage feature wall + warm neutral elsewhere	Introduces colour without overpowering the fireplace and existing furniture.
SIMPLE FINISH	Warm-toned lighting / soft olive textiles	A small coordinating change that ties the palette together.

Why this works: The room already has a neutral base and strong fireplace. The warmer floor and restrained sage accent create a more finished, contemporary look without turning the refresh into a full design project.

KEEP IT SIMPLE

Your Room Refresh summary

RECOMMENDED DIRECTION

Retain the existing layout and furniture. Introduce a warm oak-effect herringbone floor, a soft sage feature wall and subtle olive/warm-neutral accessories to give the room a calmer, more contemporary finish.

Simple next steps

- Test two or three sage/neutral paint samples in the room.
- Shortlist a warm oak-effect herringbone floor suitable for the existing subfloor.
- Check the chosen wall and floor samples together in daylight and evening light.
- Use the visual as a direction guide when shopping or speaking with a decorator or flooring supplier.

Outside this £29 package

- Room layout redesign or measured plans
- Detailed product or supplier research
- Detailed project budgets or trade pricing
- Local professional research or quotation preparation
- Additional concepts or further revisions beyond the one included revision

One structured revision within the original brief included.
